

Last year, because of donations directed to support research at our Hospital, St. Joseph's Healthcare Foundation:

GRANTED
\$3.5
MILLION

TO SUPPORT
OVER
25
AREAS OF RESEARCH
AT THE HOSPITAL

YOUR IMPACT:

Research at St. Joseph's Healthcare Hamilton

Donations made in 2017-18 to support ground-breaking research at St. Joe's set off a tremendous wave of impact that's already impacting care at our Hospital and across the community!

Thanks to our community St. Joe's:

PURCHASED CANADA'S FIRST ORTHOPAEDIC ROBOT
to allow new knee surgery research

COLLECTED RESEARCH FROM 334 ROBOTIC SURGERIES
in the Boris Family Centre for Robotic Surgery

ESTABLISHED THE UROLOGICAL ONCOLOGY RESEARCH CENTRE,
home to innovative research into the prevention and treatment of urological cancers

ALLOCATED NEARLY \$1 MILLION
to the internationally-renowned Peter Boris Centre for Addictions Research

PROVIDED \$120,000 FOR WOMEN'S HEALTH RESEARCH
into breast cancer and cognitive behavioural therapy for perinatal anxiety

INVESTED IN NEPHROLOGY RESEARCH FELLOWSHIPS
supporting new kidney and transplant discoveries

There are so many ways to make a difference at St. Joe's – **gifts of gratitude**, **gifts of caring** and **gifts for the future**. Each and every donation has both an immediate and lasting impact on the compassionate care and innovative research that happens at our Hospital.
