

YOUR IMPACT:

St. Joseph's Healthcare Foundation 2017-2018

Donations to St. Joe's in 2017-18 have created a tremendous wave of impact that's being felt all across our Hospital and community! Whether you made a one-time donation, supported an event participant with a pledge, committed to our Hospital with a major gift, donated monthly, or planned to leave a gift in your Will to St. Joe's, you contributed to a healthier future for all of us.

Last year, through the commitment and generosity of our community St. Joseph's Healthcare Foundation:

RAISED
\$12.4
MILLION

AND GRANTED
\$9.1
MILLION TO THE HOSPITAL

Thanks to our community, St. Joe's has:

PURCHASED CANADA'S FIRST ORTHOPAEDIC ROBOT

to support research into arthritis which affects 1 in 5 Hamiltonians

ESTABLISHED THE UROLOGICAL ONCOLOGY RESEARCH CENTRE

to improve care for the thousands of Canadians diagnosed with urological cancers each year

ENHANCED OUR BIRTHING UNIT

by purchasing a new operating table thanks to holiday appeal donors

PURCHASED 4 ELECTROCARDIOGRAM (ECG) MACHINES

to be used at our Charlton Campus whenever and wherever a patient is in need

PROVIDED NEARLY \$115,000 IN EDUCATION GRANTS

to Hospital staff seeking to further their education and training

STARTED TO REDEVELOP THE CHARLTON DIALYSIS CENTRE

to include private patient treatment bays and comfortable waiting areas for families

There are so many ways to make a difference at St. Joe's – **gifts of gratitude**, **gifts of caring** and **gifts for the future**. Each and every donation has both an immediate and lasting impact on the compassionate care and innovative research that happens at our Hospital.

Visit stjoesfoundation.ca/donate to learn how you can make a difference to the good health of our community or contact us at 905.521.6036.
